PROJECTOR BRACKET WALL MOUNT

360° rotating with quick release

The **TVARMPR03** is an aluminum short throw wall mount for most projectors up to 10kgs. 360° rotation and 15° tilting allows maximum viewing ability. It offers flexible projector positioning with three adjustable support arms that can fit a wide range of mounting holes. The quick release connector allows the projector to be installed quickly and then easily released for maintenance, without re-alignment. The adjustable length can meet different needs. Decorative plastic cover presents a nice look.
