STARLINK

ESSENTIAL GEAR

Starlink Mini Magnetic Protective Mount

Equipped with powerful magnets, this mount ensures the Starlink remains firmly attached to the vehicle, even at high speeds. The high-strength PC cover plate offers additional protection for the Starlink Mini against harsh weather conditions.

Starlink Mini Alloy Roof Bracket

Heavy-duty die-casting aluminum alloy construction offers a strong and secure fixation of your Starlink Mini on the RV roof rack or yacht bar. Engineered to adapt to different types of vehicles, this car roof mount is compatible with roof racks ranging in thickness from 28.6mm to 44.5mm.

Starlink Mini Magnetic Roof Mount

Durable Aluminum Alloy with UV-resistant Coating. Equipped with four high-strength magnets, ensures the Starlink Mini remains securely in place, even during high-speed travel or in harsh weather. Suitable for use on car roofs, RVs, trucks, and boats.

Starlink Mini Suction Cup Mount

The suction cup car mount can be easily installed on the sunroof, rear window glass, front windshield or other smooth surfaces, ensuring the optimal installation position of the device in different environments. Package includes: 2 x Sunroof Suction Cup Mounts.

Starlink Mini Magnetic Car Mount

The mount uses strong magnets to attach to the car's roof, or other ferrous surfaces without the need for drilling. Compact and lightweight design allows for easy installation and maximum convenience.

Starlink Mini 2-in-1 Cable

This integrated cable combines Power over Ethernet (PoE) and network connectivity in one durable, high-performance solution for streamlined Starlink Mini installations.

Starlink Mini Car Charging Cable

The car charging power cable is suitable for Star-MINI devices. The car charger to DC replacement cable is an outdoor waterproof 20AWG cable. The power can be controlled without plugging in the middle switch.

STARLINK

ESSENTIAL GEAR

Starlink Gen3 Pivot Roof Mount

With the Starlink Gen3 Pivot Mount, you can easily mount a Starlink Kit on sloping roofs. The mount allows you to rotate the Starlink to the optimal angle for the best reception. This mount is made of weather-resistant materials, allowing you to install the Starlink without any problems even in rainy conditions.

Starlink Gen3 / Mini Pipe Clamp Mount

High-quality Starlink mounting kit is crafted from premium aluminum alloy, ensuring rust and corrosion resistance for longevity. Its sleek metal texture complements your for Starlink device seamlessly, making it perfect for various applications including poles, roofs, RVs, and SUVs.

Starlink Mini RV Carry Case

IP60 waterproof hard shell suitable for Starlink Mini series accessories. With precision cut sponge lining, for placement of brackets, power adapters, power cables, powerbanks, machinery and equipment, double-layer sponge built-in for added shock resistance.

Starlink Gen3 / Mini 4 Port Ethernet Adaptor

The four-port adapter is suitable for converting the proprietary interface of the device terminal into 4 × Gigabit Ethernet ports, which is more compatible and has a wider range of uses. Cable length: 0.5M

Starlink Mini 3-in-1 Charging Cable

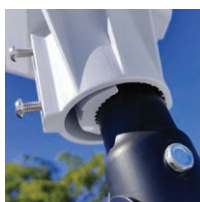

This 3-in-1 power cable features three connector options: a USB-C plug, a 12V/24V vehicle power outlet plug (with a built-in 15A fuse for protection), and multiple DC output plugs to fit your Starlink Mini.

Starlink Mini DC Power Converter

Designed for seamless operation from any car cigarette socket, it transforms 12V input into a stable 36V / 1.67A (67W max) output.

The WB-SA-GEN3 Starlink Pole Adaptor is specifically designed to mount a Starlink GEN 3 V4 Satellite Dish to almost any pole on the market.

Small pole diameter (32-42mm) adaptor included.

Injection moulded with stainless steel screws.

Simple clip-in with cable position options.

Unlike 3D printed methods, our engineers have meticulously crafted a plastic injection moulding technique with our unique and exclusive material composition, to construct an exceptionally strong adaptor that boasts not only a robust performance but long lasting solution.

It's construction is so durable, it has been successfully tested to withstand the weight of a 3 tonne truck!

It's formulation ensures durability and reliability in diverse environmental conditions, with a superior UV resistance and capacity to weather the most severe temperature changes.
